

Abstract no	Title	Author	Session	Order
6287075	United Kingdom Obstetric Surveillance System (UKOSS) study of severe peripartum hyponatraemia: comparing cases with and without documented symptoms	Aranai Pillai	Felicity Reynolds Free Papers – Thursday 12:00 – 13:00	1
6300765	Obstetric cell salvage efficiency - piecing together the puzzle	Nitish Upadhyay	Felicity Reynolds Free Papers – Thursday 12:00 – 13:00	2
6300661	Optimising care for pregnant women undergoing non-obstetric surgery: a comparative four-year review	Andrew McCallum	Felicity Reynolds Free Papers – Thursday 12:00 – 13:00	3
6301558	Women's experiences of anesthesia care during urgent or emergent cesarean section: a qualitative study examining stressors and potential solutions	Pamela Angle	Felicity Reynolds Free Papers – Thursday 12:00 – 13:00	4
6290739	Airway management during total intravenous anaesthesia for caesarean deliveries (ObsTIVA-UK service evaluation)	Ben Sharif	Felicity Reynolds Free Papers – Thursday 12:00 – 13:00	5
6299574	Post-spinal headache as a risk for post-spinal headache: are we telling patients the truth?	Sam Gurling	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	6
6275560	Plasmin generation and fibrinogen cleavage contribute to fibrinogen depletion in Acute Obstetric Coagulopathy Cardiff	Dr Nick Gill	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	1
6281706	Anaesthetic management of women with booking body-mass index > 40kg.m-2 for Caesarean. A retrospective analysis from the north-west of England UK Manchester	Bethan Roberts	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	2
6302057	Comparison of sequential and mixture injections of opioids and hyperbaric bupivacaine for subarachnoid block for lower segment caesarean section	Moustafa Moustafa	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	3
6275316	Supporting Parents and Professionals through neOnatal Resuscitation in Theatre -- The SuPPORT Project UK Cardiff	Esther Godfrey	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	4
6300686	Measuring service evaluation: a comparison of patient-reported time ready for discharge and length of stay as outcome measures after caesarean delivery	Elinor Charles	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	5
6301235	Finding the best PIEB (Programmed Intermittent Epidural Bolus) combination of bolus volume and time interval using pragmatic sequential optimization	Fatima Sherif	Felicity Reynolds Free Papers – Friday 09:30 – 10:30	6

Obstetric Anaesthesia Annual Scientific Meeting 2024

Thursday 9 – Friday 10 May 2024, The ICC, Birmingham
