

# Filming top tips

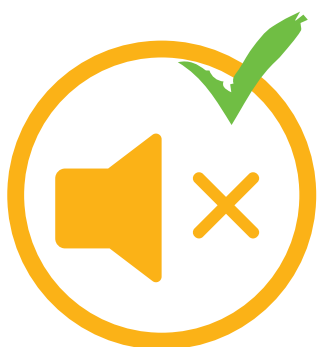

Here are our top three tips to help you make the best quality video to tell your story.

**Tip 1:** Try to film in natural light whenever you can. Avoid filming in very dark or bright places.

**Tip 2:** Keep background noise to a minimum. Turn off your TV or music while filming and speak as clearly as you can.

**Tip 3:** Always hold your device horizontally and keep yourself or the person you're filming in the middle of the screen.
